

Welcome to the West Coast

ABOUT GOTHENBURG AND THE WEST COAST

You will explore the City of Gothenburg founded 1621 thanks to successful recruitment of emigrants in the Netherlands. A strong fortress city was built with both Dutch and Swedish population. Some of us might even be distant relatives.

You will enjoy the archipelago on the Westcoast. Orust is one of the Islands about 1,5 hours drive from Gothenburg. We will take you for a boat trip to another Island, Kärringön and we will be able to take in the view and to breathe the fresh sea air.
